I have pleasure in certifying that Dr S N S Aiyengar has been with me as a pupil in the Mechanical Branch of Dental Surgery during the last three months His intention is to attain a thorough proficiency by attendance in my laboratory for two years or so

During the time he has been with me he has not only shown himself both anxious and painstaking but has already attained a considerable degree of mechanical dexterity and understands well the general methods of Dental Work

I understand that he finds that his resources will not enable him to continue his work and that to enable him to do so he has made application to the Government of Mysore for a Dental Scholarship

My intimate personal association with him during the last three months leads me to feel assured that he will do credit to any honour which may be done him
